

**Chester County Health Department Flu Vaccine Clinic Toolkit  
For Schools with Clinics Open to Community Members**

*Stopping the Flu Starts with You*

School season is prime time for classes, homework, sports... and the flu. With the flu virus most active from October to May, getting vaccinated is the #1 way to prevent the flu and the fever, sore throat, body aches, and even serious health complications it can cause. We are partnering with the Chester County Health Department to offer a flu shot clinic to community members.

**When: Thursday, October 6<sup>th</sup> from 2:30-6:00 pm**

**Where: Downingtown West High School Gym  
445 Manor Ave, Downingtown, PA**

For more information, visit [www.chesco.org/health/flu](http://www.chesco.org/health/flu). Same day, onsite registration only. If you have health insurance, bring your cards. All insurance types, including medical assistance, are welcome.
