Indicators of Achievement - PSSA

How is academic achievement measured?

Academic Achievement is measured by the PSSA's. This performance measure represents the percentage of all students scoring Proficient or Advanced on the Mathematics, Reading, Science, and Writing PSSA Exams. It includes all students who take the PSSA or PASA and were enrolled for a full academic year. This would include all students in grades 3 – 5 who were enrolled for a full academic year.

PSSA Scores

	2012-2013	2013-2014
Mathematics – Percent Proficient or Advanced on PSSA	88.34	88.22
Reading - Percent Proficient or Advanced on PSSA	80.78	85.52
Science - Percent Proficient or Advanced on PSSA	90.22	92.05
Writing - Percent Proficient or Advanced on PSSA	68.52	79
Grade 3 Reading Percent Proficient or Advanced on PSSA (This score is used as a measurement for the School Performance Profile)	89.87	89.62

Indicators of Academic Growth - PVAAS

Pennsylvania Value Added Assessment System - PVAAS is a statistical analysis of Pennsylvania (PA) state assessment data, and provides Pennsylvania districts and schools with growth data to add to achievement data.

Growth:

- Measures a student's growth across time; i.e., across years
- Not related to a student's demographics
- Compares student performance to his/her own prior performance
- Critical to ensuring a student's future academic success
- By measuring students' academic achievement AND growth, schools and districts have a more comprehensive picture of their own effectiveness in raising student achievement
