Principal Mulvey posted a school update to Marsh Creek Sixth Grade Center: 3-23-20

Good Morning MC,

Welcome to Week #2 of our Coronavirus Remote Learning - I hope everyone is staying healthy and had a good weekend. I am thankful that we had plenty of sun, and that we were able to spend a lot of time outside.

This week, we will probably be getting more clarification on when we will be expected to be back in school, and any potential changes to our current system of learning, in terms of content, submission and grading. I don't think that you need to be worried about any of that right now - we will let you know.

Some of your parents have asked me about how much time you should be spending on schoolwork, and that is a hard question to answer. For sure, there is no expectation that you should be working for the whole length of a school day. I think that everyone (in general) works at a different pace. None of these assignments are mandatory, and right now, nothing counts towards grades.

That said, in talking to teachers, it seems that the majority of students are participating and completing the lessons that are being posted. That's good to hear. Work with your parents to set time limits, and work in distraction-free areas (that includes electronic distractions!) that your home allows for.

Talk to everyone tomorrow - make sure you get some exercise today!
