Clocking In From a Computer

Step 1:

- Go to https://time.myisolved.com and login using your iSolved credentials. The username should be first initial followed by last name, all lowercase (example: John Doe would be jdoe). The Company Code for all employees is dasd. If you don’t remember what your password is, let me know and I’ll reset it for you.

Step 2:

- Once you login, click on In/Out on the upper right portion of the screen (circled in red below):
Step 3:

- The time and date will populate automatically. All you have to do to clock in (or out) is click on the **Create** button (circled in red below):

Once you do that, your (rounded) punch time should immediately appear on the screen (circled in red below):
