

Math Progression Parent Night

Please join members of the DASD administrative team for a district-wide presentation on our newly revised math progressions that will be implemented for students beginning in the 2019-2020 school year.

Over the past several years, changes have been made to better meet all students' needs in K-8 mathematics. These new math progressions will aim to increase each child's math competencies ultimately providing a deeper foundational understanding of all grade level mathematical standards. Our aim, as a district, is to continue to support students to reach their highest level of achievement and success.

We look forward to seeing you on Tuesday, November 27th, 6:30-8:00 PM, in the Downingtown West High School Auditorium.
