Kindergarten Policy

New Administrative Guidance for Policy 810 Transporting Kindergarten Students From School to Home 810-AG-1 Page 3

- For the safety of our kindergarten students, a parent/guardian, older sibling, or other authorized adult must be present at the student’s assigned bus stop.
  - They must acknowledge the student when the bus driver drops them off at the assigned bus stop.
- If there is not a parent/guardian, older sibling, or other authorized adult present to acknowledge the student, the bus driver will take the student back to their school and it will be the parent/guardian or authorized adult’s responsibility to pick up the student at the school.
- All kindergarten students will be given an ID Badge (Bus Badge) that must be worn or displayed when riding the bus. This will assist the bus driver, or substitute bus driver, in identifying the student and his/her correct bus stop.
  - The ID Badges will be mailed to the student’s address prior to the start of school. The information on the badge will be preprinted or completed by the parent/guardian.
  - The badge must be attached to the student’s backpack or other visible location. Kindergarten teachers will check if each student has a completed ID Badge prior to getting on the bus.

Attention Drivers: Please be aware of this policy and follow the procedures. If you have a kindergarten student that you need to return to the school, please radio into your dispatch, so that the school can be alerted that you are returning with a student.

Thank you for all you do!
