

Dear Parents/Guardians:

Two of the services provided by the school counselor at Uwchlan Hills are small group counseling and Lunch Bunch. These services are offered to support and enhance the development of personal skills and to promote educational success.

Small groups allow for additional social learning experiences and a chance for students to express themselves. Students also benefit from the support of group members. Students will be selected for a small group based on recommendations from parents, teachers, and school staff. Groups will be composed of students with similar goals at the same grade level. The groups will meet during a time arranged with the classroom teachers so students will not miss critical instruction. After each group meeting, parents will be notified through email or a written note of what was covered in group.

In addition to small groups, a Lunch Bunch will be available for students in all grade levels. Lunch Bunch allows for a small group of students to enjoy lunchtime with friends in the counselor's office. This is an opportunity to promote friendships and positive social characteristics. Students may sign up for Lunch Bunch, or parents and teachers may recommend a child for Lunch Bunch. Parents will be notified if their child is invited to a Lunch Bunch and have the option for their child to attend or not attend.

If you believe your child would benefit from meeting in a small group with the school counselor or attending a Lunch Bunch, or if you would like more information, please email or call me.

Sincerely,

Ted Cutrona  
School Counselor
