

Uwchlan Hills (Giering)

4th Grade Authors

Students are using Book Creator to write stories using imagery and visualization. The main character is Gizmo, their class lizard. They recently read the book "The Cricket in Times Square" by George Selden and are extending the lesson by writing their own version of the book, choosing where Gizmo visits and detailing his adventures.

Research in Library

1st grade students are learning about technology. 2nd through 5th grade students are working on research projects using various apps with iPads. The completed project will be a digital product.
